

WEALTH MANAGEMENT IN MAURITIUS

THE SMART CHOICE FOR WEALTH MANAGEMENT AND INDEPENDENT ADVISORS

Mauritius has emerged as one of the most secure, flexible and forward-looking destinations for global wealth management. Offering a blend of political stability, robust legal infrastructure and regulatory clarity, the island provides high-net-worth individuals and families with a well-rounded platform for managing, preserving, and growing their wealth.

But Mauritius is not just a place to park capital, it is a place to actively structure and steward it.

A Jurisdiction Built for Wealth

Mauritius offers several advantages for private clients. Its legal framework allows for the creation of sophisticated wealth structuring vehicles such as trusts, foundations and investment funds, while its adherence to international transparency standards (including OECD and FATF guidelines) reinforces its status as a credible, white-listed jurisdiction.

Clients also benefit from:

- No capital gains, inheritance or estate taxes
- A wide network of double taxation avoidance treaties
- Strong investor protection under a hybrid legal system
- Currency stability and access to global investment markets

These features make Mauritius not only tax-efficient, but also strategically positioned to serve as a gateway for investment into Africa, Asia, and beyond.

A Platform for Independent Advisors

Mauritius also presents a compelling opportunity for independent financial advisors and asset managers looking to operate in a regulated yet cost-efficient environment. Through a licensed management platform such as AAMIL Asset Management Ltd, advisors can serve international clients under full regulatory cover — without the burden of setting up and maintaining their own licence.

Operating under our FSC licence, independent professionals gain:

- A fully compliant operating framework
- Access to robust administrative and operational infrastructure
- Legal and regulatory support
- Freedom to focus on managing client relationships and performance

Whether based in Europe, the Middle East, or Africa, independent advisors are increasingly choosing Mauritius as a base for cross-border wealth management — combining freedom with regulatory peace of mind.

AAMIL Asset Management Ltd: Supporting Clients and Advisors

We are licensed and experienced wealth management company offering personalised portfolio management and holistic wealth planning for private clients. We also offer a turnkey solution for independent advisors, providing them with the regulatory platform, support and flexibility to grow their business in Mauritius and beyond.

Whether you are looking to structure your wealth or expand your advisory practice, Mauritius and AAMIL provides the right foundation for long-term success.
